CASE STUDY - SCHOOL DISTRICTS

## CLASSTER ALL-IN-ONE SIS HELPS ASSAFWAH SCHOOLS CREATE A CENTRALIZED SYSTEM FOR MANAGING 8 SCHOOLS

### ABOUT ASSAFWAH PRIVATE SCHOOL

Assafwah Private School was established in 2000 in Oman, with a strong objective to provide a caring, secure, and stimulating educational environment to children, students, and adults. The district consists of 8 schools in various locations, providing education **from early childhood to Upper Secondary grades**.

### CHALLENGES

As Assafwah didn't have any student information system before Classter, it lacked a centralized and cloud-based location for storing all student-related data.

The fact that the school district **operates 8 different institutions with over 1.000** students, made the transition to a cloud-based IT infrastructure a compelling need.

Also, having a cloud-based SIS would allow schools official to have a centralized overview of teachers' teaching performance, ensuring that academic offering is on par in every institution.

### CLASSTER SOLUTIONS

#### Online Admission

Students (or their parents) can manage the admission process online. Admission officers can easily create paperless registration workflows.

#### Financial Management

Back-office employees can keep track of all invoicing actions regarding tuition fees, extracurricular activities, and services.

#### Academic Personnel Evaluation

Ability to present centralized BI-type reports using Microsoft PowerBI to monitor academic personnel performance.

### AT A GLANCE

#### Classter Modules

- Academics
- Admissions
- Billing
- Surveys & Quizzes
- Custom reports

#### Integrations

- Microsoft BI

Assafwah Schools

*Just a few months after started using Classter we found ourselves saving a lot of time on time-consuming and repetitive tasks. Our teachers have time to focus on what matters most to them: teaching their students.*
